ENERGY

Mediterranean Modern Wellness.

CHI KUNG VITAL ENERGY

Chi- means vital energy, breath of life

Kung means practice constant and hard work

This art dates back more than 4,000 years and was transported and taught in China by the illustrious monk and master Bodhidharma.

Today there are many deriving styles that have developed over time, but this practice in particular is divided into 4 important steps.

THE FIRST ONE IT ACTS ON THE PHYSICAL BODY, THROUGH MOVEMENTS CONNECTED TO A CONSCIOUS RESPIRATION IT GOES TO FORTIFY THE JOINTS AND TO RELEASE THE ENERGETIC BLOCKS THAT PREVENT THE FLOW OF ENERGY IN THE MERIDIANS, THEY STRENGTHEN AND LENGTHEN THE MORE INTERNAL MUSCLE BANDS, THOSE THAT SUSTAIN THE BONES.

THE SECOND STEP, DYNAMIC AND SLOW (TAI CHI CHUAN) POSITIONS ARE USED THROUGH CONSCIOUS BREATHING AND SLOW AND COORDINATED MOVEMENTS ,A GREATER PHYSICAL CONSCIENCE DEVELOPS OF THE WHOLE BODY AND OF THE BREATHING, BRINGING THE ATTENTION BACK INTO ITS OWN ENERGY FIELD.

IN THE THIRD STEP, THROUGH A CORRECT POSTURE OF THE BODY, SLOW AND CONSCIOUS BREATHING AND STANDING MEDITATION POSITIONS, WE DEVELOPED THE ABILITY TO LOOK INWARD, TO OBSERVE THOUGHTS AND EMOTIONS WITH DETACHMENT, REALIGNING BODY MIND AND SPIRIT AT THE PRESENT MOMENT.

THE FOURTH AND FINAL STEP INCLUDES A SERIES OF SELF-MASSAGE TECHNIQUES USEFUL FOR BECOMING AWARE OF THE ENTIRE BODY AS AN ABSOLUTE UNIT, AS WELL AS FREEING IT FROM STRESS AND REPPRESSED TENSIONS. THIS PRACTICE DURING ALMOST 1 HOUR.

A CONSTANT PRACTICE OF THIS DISCIPLINE CONNECTS US TO OUR HIGHER SELF, TRANSFORM YOUR EMOTIONS AND TO CULTIVATE POSITIVE VIRTUES, IMPROVING THE QUALITY AND DURATION OF OUR EXISTENCE.

STRENGTH

Mediterranean Modern Wellness

Normally the world of fitness is aimed at developing the physical, muscular and anatomical structure of the body. You develop physical well-being, strength, endurance and flexibility, but rarely go beyond the physical world.

In our vision of the world of fitness, physical exercise is combined with meditation, which can be dynamic or aesthetic.

PURPOSE MOVEMENT & RELAXATION

WE BRING THE BODY TO EXPERIENCE MOVEMENT AND RELAXATION, TO ACHIEVE GLOBAL WELL-BEING.

THE CRUCIAL POINTS WILL BE CONSCIOUS BREATHING, STRENGTH, RESISTANCE, FLEXIBILITY, DEVELOPMENT OF REFLEXES, AND FINALLY MEDITATION THAT MAKES EVERYTHING MORE CONSCIOUS, AND BRINGS YOUR PSYCHOPHYSICAL STATE TO AN ATTENTIVE AND AWARE PRESENCE.
